

Norscan Welcomes New Account Manager

Winnipeg, MB – December 22, 2011 – Norscan Instruments Ltd. is pleased to announce the appointment of Maurice Déquier as Account Manager. With more than 15 years of technology sales and business development experience, he brings an acute understanding of how to help clients achieve their goals.

“Maurice brings a unique blend of technical expertise and communication skills,” says Ken Sontag, President. “I’m certain that his collaborative approach and keen insights will be embraced by Norscan customers.”

Most recently, Déquier held a senior sales role in an information security consulting firm. He is fluent in English and French, and resides with his family in Manitoba.

About Norscan

Norscan Instruments Ltd. is an engineering design and manufacturing company registered to ISO 9001:2008. The company was founded in 1980 with its head office in Winnipeg, Canada. As a pioneer in the development of advanced cable monitoring systems, Norscan has fostered a reputation for developing and providing quality products and services for the global telecommunications and broadband markets. Norscan continues to expand their presence outside of telecommunications and broadband markets, developing secure technology solutions for new industries and applications.
